## 2. Summary of the Action

This action contributes to achieving results under the Multiannual Indicative Programme (MIP) 2021-2027, notably priority area 2 on accountable institutions, the rule of law and security. It represents the first part of the Annual Action Plan in favour of the Republic of Moldova for 2024.

The Republic of Moldova (hereinafter "Moldova") is committed to pursue reforms in line with its steadfast course towards the EU. For the country, the start of accession negotiations remains the main political priority in 2024 and the political leadership communicates intensively on the objective of being ready for EU membership by 2030. Efforts to achieve considerable progress on the EU integration process, including the harmonisation of the EU acquis of all negotiation chapters, have already started with the adoption of a "National Action Plan for the Republic of Moldova's Accession to the EU for 2024-2027".

Therefore, a key part of this action aims to support the Moldovan authorities in developing their internal administrative capacity to deliver on reforms, in implementing the Association Agreement including the Deep and Comprehensive Free Trade Area (DCFTA) and in aligning with and implementing the EU acquis. The support will include, but will not be limited to, the provision of expertise, both short and long term – including through the High-Level Advisors - to strengthen administrative capacity as well as the continuation of an internship programme to further attract Moldovan students to work in the public sector. In line with the support for Moldova's EU integration process and the national institutions associated with this process, this action also supports the development of administrative capacity to manage economic reforms and public finances with the aim to better utilise economic resources, including those provided by the EU and other donors. This Action also envisages support for the newly created General Inspectorate for Migration and for the Moldovan justice reform including the digitalisation of the justice sector.

The specific objective of this Action is to provide support to the Moldovan authorities in implementing the country's reform agenda and in particular in developing the capacities required for the alignment with and implementation of the EU acquis. Specifically, the action aims at strengthening policy-making at sectoral level, strategic planning and policy management capacities, enhancing stakeholders' knowledge and awareness of EU policies, legislation and regulations and their capacity for alignment with the EU acquis and its implementation.

The targeted Sustainable Development Goals are 5, 8, 10, 16, and 17.

The indicative duration of the action is 72 months from the date of entry into force of the financing agreement.
